

# CASH CONSCIOUSNESS

**(1)** Once we understand that we have a right to grow rich and prosperous by honourable methods, our dead past, the living present and the unborn future are taken care of.

**(2)** GOD (Divinity), Man (Humanity) & Cash (Prosperity) are all spiritually and metaphysically related to one another. Without one, the other two make no sense.

**(3)** Poverty is as good as a sin and a crime. It is humanity's blindness to Divinity's blessings. Since ages, poverty has been an uncomfortable disease and a form of insanity.

**(4)** When we learn to balance the 3 planes (realms) of life, we begin our pathway to cash consciousness. The three realms or planes are the physical plane, mental plane and the spiritual plane.

**(5)** The opposite of cash consciousness is poverty consciousness which begins with our age old thoughts and ideas of persecution, hell, piousness, revenge, etc and passed down belief systems of sacrifice, hard times, inconsistency, misery and unhappiness as necessary ingredients of our life on earth.

**(6)** Cash Consciousness teaches us to learn stillness and silence at regular and daily intervals throughout our day. This helps us to connect with our inner GOD within and the outer GOD beyond. And then these GODS begin to work on our existing situations.

**(7)** Working diligently and continuously on the link between THOUGHT (inner supply) and SOURCE (outer supply) is the pre requisite for a healthy, harmonious and balanced Cash Consciousness.

# CC IDEAS TO WORK & LEARN

(1) The law of all laws in the universe is the law of Cash Consciousness. Simply put, it means the law of compensation. Also referred to as the law of supply and demand. Is a healthy compensation a part of your daily life ?

(2) You cannot get something for nothing. What are you willing to provide, give, sell or create ? Are you willing to work with Time, Energy or Money or any 2 or all 3 of them ?

(3) You can always give something. Yes, every human, plant, animal on earth is always able to provide something and that becomes its true essence of existence. Why do you exist ? What is your essence ?

(4) As you radiate outwards the essence of what you can provide from your inner being of existence, you move forward and activate your cash consciousness. What do you radiate daily in & during your day ?

# THE DAILY CASH CONSCIOUSNESS TRUTH

There is prosperity in the air - for me. I breathe this prosperity. And I attune myself to it in a relaxed way. It is just there. Existing. For me, now and forever ! The first step I take is to definitely and deliberately breathe into it and assimilate it in my cells, organs and my body. I am an irresistible form of human energy and through various laws governing the earth where I live and love, I develop the magnetic power to bring unto myself everything that I Divinely desire, according to the thoughts, feelings and mental pictures that I constantly entertain and radiate. I work on converting them into words and then take the required action steps to bring them to reality. I am the centre of my universe. My universe begins with me and ends with me. And therefore, I understand the power and responsibility to co-create whatever I wish and experience whatever I desire. I begin to mentally choose the cash consciousness that I desire to feel and experience by being very clear and precise about it. My thought process and clarity bring forth wonderful opportunities from which I can choose the desired levels of health, harmony and happiness. My higher and deeper understanding of my cash consciousness leads to proper safety, correct security and a grounding stability for my best life to unfold for me step by step. And then I choose for all of mankind what I have chosen for myself and I radiate it outwards from my being. Through the workings of my cash consciousness, I live and breathe in the realization that this is a rich, bountiful, plentiful, friendly and infinite universe of continuous opportunities for growth and development and evolution and I am always willing and ever ready to accept its hospitality and enjoy its blessed offerings !
